

4 STRIKE BREAKERS JOIN WESTERN UNION

Operators From Dallas, Texas, Return to Congress and Make "Business as Usual," Say Managers
STRIKERS DO PICKET DUTY
Union Men Who Have Walked Out Will Not Hold Positions Again, Say Wires Officials.

With the arrival of four telegraph operators from Dallas, Texas, yesterday the Western Union officials here said they had enough that the efficiency of the service had been increased, and that everything was running smoothly.

The striking operators adopted the strike yesterday morning and established pickets before the local Western Union office in an attempt to cripple the telegraph service out of Tulsa by keeping prospective customers from sending messages. This was discontinued before the middle of the day according to the officials.

Throughout the day the strikers came in and out and said that business was to a generalized condition and that another operator had been released since the past.

The officials of the company stated yesterday that business was in a bad condition, and that they were not behind in messages or more than under normal conditions.

The report received yesterday afternoon after all the telephone girls who would walk out Monday, which won't end telephone service immediately, was denied by G. A. Durbin, manager of the Southwestern Bell Company. He stated the man mentioned was not retained in Oklahoma and that there are no members in Tulsa.

No members who has joined the green strike will be allowed to return to their positions when the strike is settled, according to the company officials. The burden of losses from the local office is being handled by Manager Gade, his partner, and the night wires.

Merck officials claim their sales have been impaired, and that there will be no immediate necessity to replace the strikers, as the operators have walked out, and the cessation of membership in the union and not because of dissatisfaction according to the officials.

Eupora Lady Was Broke Down and Was Most Miserable, But Cardui Brought Relief and Now She Is Well.

Eupora, Miss. Mrs. H. E. Tedder recently spoke as follows: "About

five years ago I broke down

and took to my bed.

What I suffered no one knew. I was in so much pain from my knee to my waist, cramping and drawing, until I thought I would certainly die.

I grew so weak I couldn't eat, and so dizzy and faint and every time I stood on my feet I had the most miserable feeling in the lower part of my body.

I began on Cardui. It strengthened me after a few doses and diminished the pain after the first bottle. I commenced to feel better. I regained my appetite. . . . I took the Cardui right along.

I am well and strong. That has been four years. I can do all my work and feel fine."

Cardui has been found to be a valuable tonic for women. It is composed of harmless medicinal ingredients, which act in a mild and gentle way on the system and help to build up the body and nerves.
